VACCINES WE OFFER

ADULTS (19 and older)

- Routine vaccines (such as Tdap, PCV20, RSV*, Shingles*)
- Flu and COVID vaccines

CHILDREN AND ADOLESCENTS (through age 18)

- School-required vaccines (MMR, Varicella, Polio, DTaP/Tdap)
- Routine vaccines (such as HPV, Meningococcal, Hepatitis A & B)
- Flu and COVID vaccines

If you have insurance

Most insurance plans cover the full cost of vaccines, with no charge to you. Please bring your insurance card(s) — billing insurance helps us keep vaccines accessible for everyone.

If you don't have insurance

State programs (VFC/VFA) allows us to provide low- to no-cost vaccines for those without coverage. When you sign up online or in person, we'll review available options with you to reduce cost barriers.

***RSV** and **Shingles** vaccines are not covered by the state program. They may be covered by Medicare Part D or private insurance. If not covered, out-of-pocket payment is required. Monthly payment plans are available.
